SUMMARY

Our auditors have issued a going concern opinion. This means that there is substantial doubt that we can continue as an ongoing business for the next twelve months. The financial statements do not include any adjustments that might result from the uncertainty about our ability to continue in business. We have suffered operating losses since our inception. As such we may have to cease operations and you could lose your investment.

As used in this prospectus, unless the context otherwise requires, "we", "us", "our" " Verve Ventures Inc." or "Verve" refers to Verve Ventures Inc. All dollar amounts in this prospectus are in U.S. dollars unless otherwise stated. The following summary is not complete and does not contain all of the information that may be important to you. Prospective investors are urged to read the entire prospectus before making an investment decision to purchase our common shares.

We were incorporated on February 23, 2010 under the laws of the state of Nevada. Our principal offices are located at 33 Turnberry Drive Wilmslow, Cheshire Sk92QW. Our telephone number is 44-161-884-0149. We intend to provide household and business waste removal and disposal services to corporate and individual clients in the United Kingdom. Our services will be focused on a client base that is willing to pay a premium to assure both social and environmental concerns are addressed in all aspects of waste collection and disposal. We intend to operate a fleet of vehicles and a sorting/storage facilities both of which will begin small and scalable.

At the time of filing this registration statement the company has begun the development of a corporate website (www.vervejunk.com), set up a toll free number (0-808-189-0364) raised \$25,250 in share capital and completed an audit of the company's financial statements ended October 31, 2010. We have yet to implement our business plan.

TOTAL TIMELINE: 285 DAYS AFTER THE EFFECTIVENESS OF THIS REGISTRATION STATEMENT
TOTAL BUDGET: \$329,780

At our year end, October 31, 2010 we had assets of \$24,653 made up completely of cash and a net loss of (\$1,972). Our current monthly burn rate is approximately \$1,200 and our current capital will last the company less than 7 months. Our budget to complete our plan of operations is \$329,780. The estimated costs associated with this offering are approximately \$16,000 leaving us with post-offering cash assets of \$8,653 as of October 31, 2010. The current burn rate is primarily made up of the costs associated with being a reporting issuer

and is projected to increase substantially once operations begin.

THE OFFERING:

Securities Being Offered Up to 5,550,000 shares of common stock.

Offering Price The selling shareholders will sell our shares at a fixed price of \$0.01 per share unless and until our shares are quoted on the OTC Bulletin Board.

There is no public market for our common stock. We cannot give any assurance that the shares offered will have a market value, or that they can be resold at the offered price if and when an active secondary market might develop, or that a public market for our securities may be sustained even if developed. The absence of a public market for our stock will make it difficult to sell your shares in our stock.

We intend to apply to the OTC Bulletin Board, through a market maker that is a licensed broker dealer, to allow the trading of our common stock upon our becoming a reporting entity under the Securities Exchange Act of 1934. If our common stock becomes so quoted and a market for the stock develops, the actual price of stock will be determined by prevailing market prices at the time of sale or by private transactions negotiated by the selling shareholders. The offering price would thus be determined by market factors and the independent decisions of the selling shareholders.

Terms of the Offering The selling shareholders will determine when and how they will sell the common stock offered in this prospectus.

Termination of the Offering The offering will conclude when all of the 5,550,000 shares of common stock have been sold, the shares no longer need to be registered to be sold due to the operation of Rule 144 or we decide at any time to terminate the registration of the shares at our sole discretion but in no event later than two years from the effective date of this registration statement. (Date of expiration will be provided for this continuous offering once known)

Securities Issued and to be Issued 5,550,000 shares of our common stock to be sold in this prospectus are issued and outstanding as of the date of this prospectus. All of the common stock to be sold under this prospectus will be sold by existing shareholders.

Use of Proceeds We will not receive any proceeds from the sale of the common stock by the selling shareholders.

4

The purpose of this offering is to offer existing shareholders (other than officers and directors) the opportunity to benefit from a trading market, if one develops in response to the Company's future performance. Depending on the level of market interest, the Company may consider selling additional shares to new investors to help fund working capital requirements and expand the scope of business. The Company is aware of the fact that the creation of a secondary market of shares for sale may have an adverse affect on our ability to raise capital in the future. The Company is not contractually obligated to file the S-1.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks described below and the other information in this prospectus before investing in our common stock. If any of the following risks occur, our business, operating results and financial condition could be seriously harmed. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment.

WE INTEND TO ISSUE ADDITIONAL SHARES OF COMMON STOCK, WHICH WOULD REDUCE INVESTORS' PERCENT OF OWNERSHIP AND MAY DILUTE OUR SHARE VALUE.

Our Articles of Incorporation authorize the issuance of 75,000,000 shares of common stock, par value \$0.001 per share, of which 9,050,000 shares are issued and outstanding. The future issuance of common stock may result in substantial dilution in the percentage of our common stock held by our then existing shareholders. We may value any common stock issued in the future on an arbitrary basis. The issuance of common stock for future services or acquisitions or other corporate actions may have the effect of diluting the value of the shares held by our investors, and might have an adverse effect on any trading market for our common stock.

IF WE DO NOT OBTAIN ADDITIONAL FINANCING, OUR BUSINESS WILL FAIL.

While at October 31, 2010 we had cash on hand of \$24,653, we have accumulated a deficit of (\$1,972) in business development expenses. The estimated costs associated with this offering are approximately \$16,000 leaving us with post-offering cash assets of \$8,653 as of October 31, 2010. The current burn rate is the cost associated with costs of being a reporting issuer and is projected to increase substantially once operations begin.

We anticipate that additional funding will be needed for general administrative expenses and marketing costs. We intend to raise the required funds through an equity placement by filing a secondary registration statement. We will realize

5

no proceeds from the present registration statement and may have difficulties in raising additional funds due to the creation of a secondary market of shares for sale. However, there is no guarantee that we will be able to raise the required cash and because of this our business may fail. We have not generated any revenue from operations to date. The specific cost requirements needed to maintain operations will depend upon demand generated from potential clients but initial projections are discussed in the Plan of Operations.

We do not currently have any arrangements for financing. Obtaining additional funding will be subject to a number of factors, including general market conditions, investor acceptance of our business plan and initial results from our business operations. These factors may impact the timing, amount, terms or conditions of additional financing available to us. The most likely source of future funds available to us is through the sale of additional shares of common stock or advances from our sole director.

BECAUSE OUR OFFICERS AND DIRECTORS HAVE OTHER BUSINESS INTERESTS, THEY MAY NOT BE ABLE OR WILLING TO DEVOTE A SUFFICIENT AMOUNT OF TIME TO OUR BUSINESS OPERATIONS, CAUSING OUR BUSINESS TO FAIL.

Our two officers and directors Leslie Clitheroe and Christopher Clitheroe will only be devoting limited time to our operations. Christopher will be handling most of the company's day to day operations and intends to devote 10 hours of his week to our business affairs until such a time when a salary can be drawn. Leslie Clitheroe will be available on an as needed basis until full operations begin. Because our officers and directors will only be devoting limited time to our operations, our operations may be sporadic and occur at times which are convenient to them. As a result, operations may be periodically interrupted or suspended which could result in a lack of revenues and a possible cessation of operations.

IF WE DO NOT COMPLY WITH CONDITIONS SET BY THE ENVIRONMENTAL PERMITTING REGULATOR WE CAN BE PENALIZED.

If a corporation does not comply with the conditions set by the regulator of an environmental permit the regulator has the following enforcement procedures:

- For minor breaches a regulator will discuss what is needed to comply with environmental permitting
- in more serious cases the regulator can issue a suspension notice, enforcement notice, prosecute or revoke the permit.

The regulator can prosecute if we commit an offence, including if we:

1) operate a regulated facility, or cause or allow a regulated facility to operate, without being authorized, eg if you do not have an environmental permit or registered exemption 2) cause or allow a water discharge activity or groundwater activity without an environmental permit 3) don't comply with the conditions in your environmental permit 4) don't comply with an enforcement notice, prohibition notice, suspension notice, landfill closure notice or mining

waste closure notice 5) don't comply with an information notice 6) make a false or misleading statement to your regulator 7) intentionally make a false entry in a record you are required to keep under an environmental permit condition 8) forge documents required under an environmental permit condition.

BECAUSE WE HAVE ONLY TWO OFFICERS AND DIRECTORS WHO HAVE NO FORMAL TRAINING IN WASTE MANAGEMENT SERVICES OUR BUSINESS HAS A HIGHER RISK OF FAILURE.

Our two officers Leslie Clitheroe and Christopher Clitheroe do not have experience in the field of waste management. Because of this lack of experience there is a risk that some of the strategic or operational factors needed to achieve self sustaining levels of revenues may be overlooked. If we are unable to reach our projected break-even level of 1,300 clients per year our business could fail or require additional financing beyond our current budget.

BECAUSE FUEL IS A LARGE VARIABLE COST IN OUR BUSINESS MODEL WE ARE AT RISK OF RISING ENERGY PRICES AFFECTING OUR PROFITABILITY.

6

Diesel fuel is the largest variable cost in our business model. The price of diesel is beyond the control of the company and if levels rise this will cut into our costs that we may, or may not, be able to recover with increased service charges to clients. If fuel prices rise substantially our break even number of clients are likely to increase making it more difficult to achieve profitable operations.

BECAUSE WE HAVE ONLY TWO OFFICERS AND DIRECTORS WHO HAVE NO FORMAL TRAINING IN FINANCIAL ACCOUNTING AND MANAGEMENT, OUR BUSINESS HAS A HIGHER RISK OF FAILURE.

We have only two officers and directors. Both have no formal training in financial accounting and management; however, he is responsible for our managerial and organizational structure, which will include preparation of disclosure and accounting controls. When the disclosure and accounting controls referred to above are implemented, he will be responsible for the administration of them. Should he not have sufficient experience, he may be incapable of creating and implementing the controls which may cause us to be subject to sanctions and fines by the SEC which ultimately could cause an investor to lose their investment. However, because of the small size of our expected operations, we believe that he will be able to monitor the controls they will have created and will be accurate in assembling and providing information to investors. Leslie and Christopher's lack of training in financial accounting and management may result in a material misstatement of the Company's financial statements. In addition due to the Company's lack of accounting personnel we may be unsuccessful in maintaining effective internal controls over financial reporting and disclosure controls and procedures, which may result in material misstatements of our financial statements.

BECAUSE OUR CONTINUATION AS A GOING CONCERN IS IN DOUBT, WE WILL BE FORCED TO CEASE BUSINESS OPERATIONS UNLESS WE CAN GENERATE PROFITABLE OPERATIONS IN THE FUTURE.

We will be incurring losses until we build a break-even level of revenue. Further losses are anticipated in the development of our business. As a result, there is substantial doubt about our ability to continue as a going concern. Our ability to continue as a going concern is dependent upon our ability to generate profitable operations in the future and/or to obtain the necessary financing to meet our obligations and repay our liabilities arising from normal business operations when they come due. We will require additional funds in order to provide proper service to our potential clients. At this time, we cannot assure investors that we will be able to obtain financing. If we are unable to raise needed financing, we will have to delay or abandon further consulting efforts. If we cannot raise financing to meet our obligations, we will be insolvent and will be forced to cease our business operations.

BECAUSE OUR OFFICERS AND DIRECTORS OWN 39% OF OUR ISSUED AND OUTSTANDING COMMON STOCK, THEY CAN MAKE AND CONTROL CORPORATE DECISIONS THAT MAY BE DISADVANTAGEOUS TO MINORITY SHAREHOLDERS.

Our officers and directors, Leslie Clitheroe and Christopher Clitheroe, own approximately 39% of the outstanding shares of our common stock. Accordingly, they will have a significant influence in determining the outcome of all corporate transactions or other matters, including mergers, consolidations, and the sale of all or substantially all of our assets. He will also have the power to prevent or cause a change in control. The interests of our officers and directors may differ from the interests of the other stockholders and thus result in corporate decisions that are disadvantageous to other shareholders.

THE AMOUNT OF SHARES TO BE SOLD THROUGH THIS OFFERING MAY MAKE IT DIFFICULT TO MAKE A SUCCESSFUL OFFERING OF OUR SECURITIES IN THE NEAR FUTURE.

7

Our selling shareholders are offering a significant percentage (61%) of our outstanding shares through this registration statement. As such, it may be difficult to make a successful offering of our securities to raise capital in the near future.

AS A SHELL COMPANY, WE FACE SUBSTANTIAL ADDITIONAL ADVERSE BUSINESS AND LEGAL CONSEQUENCES.

On June 29, 2005, the Securities and Exchange Commission adopted final rules amending the Form S-8 and the Form 8-K for shell companies like us. The

amendments expand the definition of a shell company to be broader than a company with no or nominal operations/assets or assets consisting of cash and cash equivalents. The amendments prohibit the use of a Form S-8 (a form used by a corporation to register securities issued to an employee, director, officer, consultant or advisors), under certain circumstances, and revise the Form 8-K to require a shell company to include current Form 10 information, including audited financing statements, in the filing on Form 8-K that the shell company files to report the acquisition of a business opportunity. This initial filing must be made within four days of the acquisition. The Form 8-K filing may be reviewed by the Securities and Exchange Commission and the prospects of certain disclosure or review of the lack of the ability to issue securities using a Form S-8 may delay the consummation of any potential business combination.

AS A SHELL COMPANY, OUR SHAREHOLDERS WILL NOT BE ABLE TO RELY UPON RULE 144 FOR THE RESALE OF THEIR SHARES.

In general, Rule 144 requires restricted securities to be held for a particular length of time and prescribes the conditions which must be satisfied prior to the sale of the securities. The Securities and Exchange Commission codified a staff interpretation relating to the treatment of the securities of shell companies, of which we are one. Under the amendments, Rule 144 is not available for the resale of securities initially issued by a shell company (reporting or non-reporting) or a former shell company. Therefore, the securities held by our shareholders can be resold only through a resale registration statement unless certain conditions are met. These conditions are:

- * The company has ceased to be a shell company;
- * The company is subject to the reporting requirements of Section 13 or 15 (d) of the Securities Exchange Act of 1934, as amended;
- * The company has filed all reports and other materials required to be filed by Section 13 or 15(d) of the Securities Exchange Act, as applicable, during the preceding twelve months; and
- * One year has elapsed since the Company has filed current "Form 10 information" with the Securities and Exchange Commission reflecting its status as an entity that is no longer a shell company.

If these conditions are satisfied, then our shareholders can resell their securities subject to all other applicable Rule 144 conditions. See "Market for Common Equity and Related Stockholder Matters - Rule 144 Shares".

U.S. INVESTORS MAY EXPERIENCE DIFFICULTIES IN ATTEMPTING TO EFFECT SERVICE OF PROCESS AND TO ENFORCE JUDGMENTS BASED UPON U.S. FEDERAL SECURITIES LAWS AGAINST THE COMPANY AND ITS SOLE NON-U.S. RESIDENT OFFICER AND DIRECTOR.

While we are organized under the laws of State of Nevada, our officers and directors are non-U.S. residents. Consequently, it may be difficult for investors to affect service of process on Leslie and Christopher Clitheroe in the United States and to enforce in the United States judgments obtained in United States courts against Mr. Clitheroe based on the civil liability provisions of the United States securities laws. Since our assets will be located in the UK and other non-US countries it may be difficult or impossible for U.S. investors to collect a judgment against us. As well, any judgment obtained in the United States against us may not be enforceable in the United States.

8

IF A MARKET FOR OUR COMMON STOCK DOES NOT DEVELOP, SHAREHOLDERS MAY BE UNABLE TO SELL THEIR SHARES.

There is currently no market for our common stock and we can provide no assurance that a market will develop. We plan to apply for listing of our common stock on the over the counter bulletin board upon the effectiveness of this registration statement, of which this prospectus forms a part. However, we can provide investors with no assurance that our shares will be quoted on the bulletin board or, if quoted, that a public market will materialize. If no market is ever developed for our shares, it will be difficult for shareholders to sell their stock. In such a case, shareholders may find that they are unable to achieve benefits from their investment.

OUR SHARES OF COMMON STOCK ARE SUBJECT TO THE "PENNY STOCK" RULES OF THE SECURITIES AND EXCHANGE COMMISSION AND THE TRADING MARKET IN OUR SECURITIES WILL BE LIMITED, WHICH WILL MAKE TRANSACTIONS IN OUR STOCK CUMBERSOME AND MAY REDUCE THE VALUE OF AN INVESTMENT IN OUR STOCK.

The SEC has adopted rules that regulate broker-dealer practices in connection with transactions in "penny stocks." Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system). Penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, to deliver a standardized risk disclosure document prepared by the SEC, which specifies information about penny stocks and the nature and significance of risks of the penny stock market. A broker-dealer must also provide the customer with bid and offer quotations for the penny stock, the compensation of the broker-dealer, and sales person in the transaction, and monthly account statements indicating the market value of each penny stock held in the customer's account. In addition, the penny stock rules require that, prior to a transaction in a penny stock not otherwise exempt from those rules,

the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the trading activity in the secondary market for stock that becomes subject to those penny stock rules. If a trading market for our common stock develops, our common stock will probably become subject to the penny stock rules, and shareholders may have difficulty in selling their shares.

ANY ADDITIONAL FUNDING WE ARRANGE THROUGH THE SALE OF OUR COMMON STOCK WILL RESULT IN DILUTION TO EXISTING SHAREHOLDERS.

We must raise additional capital in order for our business plan to succeed. Our most likely source of additional capital will be through the sale of additional shares of common stock. Such stock issuances will cause stockholders' interests in our company to be diluted. Such dilution will negatively affect the value of investors' shares.

WE DO NOT EXPECT TO PAY DIVIDENDS IN THE FORESEEABLE FUTURE.

We have never paid any dividends on our common stock. We do not expect to pay cash dividends on our common stock at any time in the foreseeable future. The future payment of dividends directly depends upon our future earnings, capital requirements, financial requirements and other factors that our board of directors will consider. Since we do not anticipate paying cash dividends on our common stock, a return on your investment, if any, will depend solely on an increase, if any, in the market value of our common stock.

WE HAVE NO EXPERIENCE AS A PUBLIC COMPANY.

We have never operated as a public company. We have no experience in complying with the various rules and regulations, which are required of a public company. As a result, we may not be able to operate successfully as a public company, even if our operations are successful. We plan to comply with all of the various rules and regulations, which are required of a public company. However, if we

9

cannot operate successfully as a public company, your investment may be adversely affected. Our inability to operate as a public company could be the basis of your losing your entire investment in us.

As a public company we will incur additional costs including but not limited to the following: Audit, Legal, Prospectus printing and drafting, SEC fees, Market Maker, Transfer Agent, and EDGAR filing fees. These costs are expected to run between \$12,000 and \$40,000 per year.

FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that involve risks and uncertainties. We use words such as anticipate, believe, plan, expect, future, intend and similar expressions to identify such forward-looking statements. You should not place too much reliance on these forward-looking statements. Our actual results are most likely to differ materially from those anticipated in these forward-looking statements for many reasons, including the risks faced by us described in the "Risk Factors" section and elsewhere in this prospectus.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the common stock offered through this prospectus by the selling shareholders.

DETERMINATION OF OFFERING PRICE

The selling shareholders will sell our shares at a fixed price of \$0.01 per share unless and until our shares are quoted on the OTC Bulletin Board. We determined this offering price arbitrarily. There is no relationship between this price and our assets, earnings, book value or any other objective criteria of value.

We intend to apply to the OTC Bulletin Board through a market maker for the quotation of our common stock upon our becoming a reporting entity under the Securities Exchange Act of 1934. If our common stock becomes so quoted and a market for the stock develops, the actual price of stock will be determined by prevailing market prices at the time of sale or by private transactions negotiated by the selling shareholders. The offering price would thus be determined by market factors and the independent decisions of the selling shareholders.

DILUTION

The common stock to be sold by the selling shareholders is common stock that is currently issued and outstanding. Accordingly, there will be no dilution to our existing shareholders.

SELLING SHAREHOLDERS

The selling shareholders named in this prospectus are offering all of the 5,550,000 shares of common stock offered through this prospectus. These shares were acquired from us in private placements that were exempt from registration provided under Regulation S of the Securities Act of 1933. All shares were

acquired outside of the United States by non-U.S. persons. The shares include the following:

1. 5,550,000 shares of our common stock that the selling shareholders acquired from us in an offering that was exempt from registration under Regulation S of the Securities Act of 1933 that was completed on March 10, 2010;

The following table provides as of the date of this prospectus, information regarding the beneficial ownership of our common stock held by each of the selling shareholders, including:

10

1. the number of shares owned by each prior to this offering;
2. the total number of shares that are to be offered for each;
3. the total number of shares that will be owned by each upon completion of the offering; and
4. the percentage owned by each upon completion of the offering.

*1 Andrea Clitheroe is the spouse of Leslie Clitheroe, a significant stockholder of the Company and a Director.

*2 Jennifer Clitheroe is the daughter of Leslie Clitheroe and the sibling of Christopher Clitheroe, both of whom are significant stockholders of the Company and Directors.

The two above named selling shareholders are the only selling shareholders affiliated with the Company.

The named party beneficially owns and has sole voting and investment power over all shares or rights to these shares. The numbers in this table assume that none of the selling shareholders sells shares of common stock not being offered in

11

this prospectus or purchases additional shares of common stock, and assumes that all shares offered are sold. The percentages are based on 9,050,000 shares of common stock issued and outstanding on the date of this prospectus.

To our knowledge, none of the selling shareholders or their beneficial owners: - has had a material relationship with us other than as a shareholder at any time within the past three years; or - has ever been one of our officers or directors or an officer or director of our predecessors or affiliates - are broker-dealers or affiliated with broker-dealers.

PLAN OF DISTRIBUTION

The selling shareholders may sell some or all of their common stock in one or more transactions, including block transactions. There are no arrangements, agreements or understandings with respect to the sale of these securities.

The selling shareholders will sell our shares at a fixed price of \$0.01 unless and until our shares are quoted on the OTC Bulletin Board. We determined this offering price arbitrarily. We intend to contact an authorized OTC Bulletin Board market-maker for sponsorship of our securities on the OTC Bulletin Board. Although we intend to apply for quotation of our common stock on the OTC Bulletin Board, public trading of our common stock may never materialize. If our common stock becomes quoted on the OTC Bulletin Board, then the sales price to the public will vary according to the selling decisions of each selling shareholder and the market for our stock at the time of resale.

If applicable, the selling shareholders may distribute shares to one or more of their nominees who are unaffiliated with us. Such nominees may, in turn, distribute such shares as described above. If these shares being registered for resale are transferred from the named selling shareholders and the new shareholders wish to rely on the prospectus to resell these shares, then we must first file a prospectus supplement naming these individuals as selling shareholders and providing the information required concerning the identity of each selling shareholder and he or her relationship to us. There is no agreement or understanding between the selling shareholders and any nominees with respect to the distribution of the shares being registered for resale pursuant to this registration statement.

For the purpose of this registration statement nominee will be defined as: (a) a person or entity who is requested or named to act for another, such as an agent or trustee, or (b) a potential successor to another's rights under a contract.

We can provide no assurance that all or any of the common stock offered will be sold by the selling shareholders.

We are bearing all costs relating to the registration of the common stock. The selling shareholders, however, will pay any commissions or other fees payable to brokers or dealers in connection with any sale of the common stock.

Other than those who are considered affiliates and must comply with Rule 144, the persons listed in the table above plan to offer the shares shown opposite their respective names by means of this prospectus. The owners of the shares to be sold by means of this prospectus are referred to as the "selling" shareholders". The selling shareholders acquired their shares from us in private negotiated transactions. These shares may be sold by one or more of the following methods, without limitations.

- * A block trade in which a broker or dealer so engaged will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- * Purchase by a broker or dealer as principal and resale by such broker or dealer for its account pursuant to this prospectus;
- * Ordinary brokerage transactions and transactions in which the broker solicits purchasers
- * Face to face transactions between sellers and purchasers without a broker/dealer.

12

We currently a "shell company" and our shares of common stock may not be resold under Rule 144 of the Securities Act of 1933. Our shares are only able to resold through a registration statement declared effective by the SEC or by meeting the conditions of Rule 144(i). Therefore it is possible that you may not be able to sell your shares into the market place.

In competing sales, brokers or dealers engaged by the selling shareholders may arrange for other brokers or dealers to participate. Brokers or dealers may receive commissions or discounts from selling shareholders in amounts to be negotiated. As to any particular broker-dealer, this compensation might be in excess of customary commissions. Neither, we nor the selling stockholders can presently estimate the amount of such compensation.

Any broker/dealers who act in connection with the sale of the shares will be deemed to be "underwriters" within the meaning of the Securities Acts of 1933, and any commissions received by them and any profit on any resale of the shares as a principal might be deemed to be underwriting discounts and commissions under the Securities Act.

If any selling shareholders enters into an agreement to sell his or her shares to a broker/dealer as principal and the broker/dealer is acting as an underwriter, we will file a post-effective amendment to the registration statement, of which this prospectus is a part, identifying the broker/dealer, providing required information concerning the plan of distribution, and otherwise revising the disclosures in this prospectus as needed. We will also file the agreement between the selling shareholder and the broker/dealer as an exhibit to the post-effective amendment to the registration statement.

We have advised the selling shareholders that they and any securities broker/dealers or others who will be deemed to be statutory underwriters will be subject to the prospectus delivery requirements under the Securities Act of 1933. We have advised each selling shareholder that in the event of a "distribution" of the shares owned by the selling shareholder, such selling shareholder, any "affiliated purchasers", and any broker/dealer or other person who participates in the distribution may be subject to Rule 102 of Regulation M

under the Securities Exchange Act of 1934 ("1934 Act") until their participation in that distribution is complete. Rule 102 makes it unlawful for any person who is participating in a distribution to bid for or purchase stock of the same class, as is the subject of the distribution. A "distribution" is defined in Rule 102 as an offering of securities "that is distinguished from ordinary trading transaction by the magnitude of the offering and the presence of special selling efforts and selling methods". We have advised the selling shareholders that Rule 101 of Regulation M under the 1934 Act prohibits any "stabilizing bid" or "stabilizing purchase" for purpose of pegging, fixing or stabilizing the price of the common stock in connection with this offering.

No selling shareholder (other than the current officer/director) has, or had, any material relationship with our officers or directors. No selling shareholder is affiliated with a broker/dealer.

The selling shareholders must comply with the requirements of the Securities Act and the Securities Exchange Act in the offer and sale of the common stock. In particular, during such times as the selling shareholders may be deemed to be engaged in a distribution of the common stock, and therefore be considered to be an underwriter, they must comply with applicable law and may, among other things:

1. Not engage in any stabilization activities in connection with our common stock;
2. Furnish each broker or dealer through which common stock may be offered, such copies of this prospectus, as amended from time to time, as may be required by such broker or dealer; and
3. Not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities other than as permitted under the Securities Exchange Act.

13

The Securities and Exchange Commission has also adopted rules that regulate broker-dealer practices in connection with transactions in penny stocks. Penny stocks are generally equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system).

The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, deliver a standardized risk disclosure document prepared by the Commission, which contains:

- a description of the nature and level of risk in the market for penny stocks in both public offerings and secondary trading;
- a description of the broker's or dealer's duties to the customer and of the rights and remedies available to the customer with respect to a violation of such duties or other requirements;
- a brief, clear, narrative description of a dealer market, including "bid" and "ask" prices for penny stocks and the significance of the spread between the bid and ask price;
- a toll-free telephone number for inquiries on disciplinary actions;
- a definition of significant terms in the disclosure document or in the conduct of trading penny stocks; and
- such other information and is in such form (including language, type, size, and format) as the Commission shall require by rule or regulation.

The broker-dealer also must provide, prior to effecting any transaction in a penny stock, the customer with:

- bid and offer quotations for the penny stock;
- the compensation of the broker-dealer and its salesperson in the transaction;
- the number of shares to which such bid and ask prices apply, or other comparable information relating to the depth and liquidity of the market for such stock; and
- monthly account statements showing the market value of each penny stock held in the customer's account.

In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from those rules; the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written acknowledgment of the receipt of a risk disclosure statement, a written agreement to transactions involving penny stocks, and a signed and dated copy of a written suitability statement. These disclosure requirements will have the effect of reducing the trading activity in the secondary market for our stock because it will be subject to these penny stock rules. Therefore, stockholders may have difficulty selling those securities.

DESCRIPTION OF BUSINESS

We were incorporated in the State of Nevada on February 23, 2010. We have not started operations but have set up a toll free number and started work on a corporate website (www.vervejunk.com). We intend to provide waste removal and disposal services to corporate and individual clients in the United Kingdom. Our services will be focused on a client base that is willing to pay a premium to assure both social and environmental concerns are addressed in all aspects of waste collection and disposal. We intend to operate a fleet of vehicles and a sorting/storage facilities both of which will begin small and scalable.

Initially we plan to outfit two 'Waste-Removal Vehicles' that will be used to collect waste and bring it to a processing/storage facility that where waste will be organized into specialized categories to make sure that all waste is dealt with in the most socially and environmentally responsible manner. There will be 5 main categories of 'waste':

Recyclable: Recyclable materials include all products and materials that require further processing and refinement to be made into new products. These materials include the vast majority of containers, glass, plastics, cardboards, fibrous materials, metals and other. These materials will be stored for delivery to a recycling plant.

Recyclable (compost): Though the majority of our waste removal will not include perishables or other compostable nitrogen and phosphate rich materials any such materials will be stored in a compost area and resold as an aftermarket compost product.

Reusable (Charity): All clothing, furniture and electronic items that are collected. Items of adequate quality will be stored and delivered to the most relevant charity in order to assure they go to a worthy cause.

Reusable (Resale): All materials that can be used for construction including, beams, plywood, rebar, ect. These products will be stored and offered for resale.

Waste: All materials and products that do not fit into the other four categories.

PRO FORMA EXPENSE AND REVENUE BUDGET (ALL COSTS HAVE BEEN CONVERTED TO US DOLLARS OUR REPORTING CURRENCY)

Before any revenue is generated the company will require additional capital which it intends to raise through an equity financing and the filing of an additional registration statement. We will realize no proceeds from the present registration statement and may have difficulties in raising additional funds due to the creation of a secondary market of shares for sale. We intend to concentrate all our efforts on raising capital during this period.

We cannot commence our plan of operations even if this registration statement goes effective because we will not receive any proceeds from the sale of shares. We can only commence operations if we raise cash through the future sale of shares. We will require additional financing of \$350,000 in order to proceed with our full business plan for a full year. We plan to sell additional common shares in order to raise the funds necessary to pursue our plan of operations. Issuances of additional shares will result in dilution to our existing shareholders. We also may receive loans from our officers and directors. We currently do not have any arrangements in place for obtaining director loans and there is no assurance that we will be successful in completing any equity financing.

If we are successful in raising capital we intend on carrying out our plan of operations.

CAPITAL EXPENSES

Major budgeted expenses include the following:

16

Secondary Offering: \$15,000
Website Development: \$15,000
Vehicle Leasing \$88,280
Plant Leasing and Setup: \$51,000
Staff Salaries: \$108,000
Marketing: \$25,000
Corporate Overhead: \$27,500

Total Estimated Capital Expenses: \$329,780

VARIABLE EXPENSES

The primary variable cost will be additional fuel required. Our Capital Expenses include a monthly expense of \$2,000 per vehicle in fuel purchases. However if we get more clients than expected or service clients at greater distances this could increase the cost above the budgeted cost.

CORPORATE OVERHEAD EXPENSES

Audit: \$15,000
Legal: \$10,000
Filing fees: \$2,500

Total Estimated Corporate Overhead Expenses: 27,500

REVENUES

Revenues will be based on the amount of clients we are able to provide our services to and our ability to keep consistent clientele.

Our prices will range from \$100 - \$500 and will be dependent on the size of the load and whether waste can be brought straight to a disposal facility or if it has to be sorted at our corporate plant. If we are to assume an average client will be billed \$250 (towards the conservative end) we will require approximately 1200 clients per year in order to pay for all operational expenditures. While 1300 clients per year are required in order to break even with total costs inclusive of operational and corporate overhead. Based on a full year not taking into consideration holidays that works out to be 3.5 clients served (loads picked up) per day.

We have budgeted for capacity to serve 3-5 pickups per day per vehicle based on the distance, size and location of the pickup. With two vehicles this provides capacity to operate in excess of breakeven levels. Management believes our marketing efforts and the ability to attract clientele will be the primary factor of our success.

MARKET

If we are able to raise capital in an additional equity offering we intend to locate our shop in the Greater Manchester Area. The last population census for Manchester and the Greater Manchester Area put 2001 population of Manchester at 441,200 and the Greater Manchester Area at 2,547,700. We expect our primary users to be residences with detached houses and businesses of all categories. There are many competitors currently in the 'junk removal' business. There is no guarantee that Verve Ventures will be able to capture a sizable proportion of the local marketplace in order to break even and eventually reach profitable levels of clientele.

17

MARKETING

We intend to differentiate ourselves by our social and environmental approach and not compete on a price model with the numerous companies already occupying that space. Our website will focus on the things that make our service green and socially conscious: -Differentiation of waste to make sure the highest possible amount of waste is recycled/reused/donated . -Offsetting of carbon footprint from all vehicles.

In addition we will hand out pamphlets/coupons at environmental functions and use some of our marketing budget to help sponsor social and environmental functions so to directly advertise to our target market.

INSURANCE

We do not maintain any insurance at present but intend to insure all timber assets if such insurance for carbon projects becomes available. At present there is no insurance available for forest-based carbon projects. . Because we do not have any insurance at present, if we are made a party of a liability action, we may not have sufficient funds to defend the litigation. If that occurs a judgment could be rendered against us that could cause us to cease operations.

EMPLOYEES

We are a development stage company and currently have no employees, other than our two officers and directors. We intend to hire additional employees as described in our plan of operations if we are able to raise the required funds.

GOVERNMENT REGULATIONS

We are required to have a business license as well as comply with all laws regarding waste brokers and dealers in the US and Wales.

WASTE BROKERS AND DEALERS AND ENVIRONMENTAL PERMITTING:

Corporations dealing in waste must register as a waste broker. In addition for corporations that store waste on their own site must be authorized to do so by an environmental permit. If a corporation has an environmental permit there is no need to register as a waste broker.

Environmental permitting is a risk-based regime for regulating business activities that could have an impact on the environment and human health. It is a streamlined system for managing environmental permits with common procedures for appeals, changes and transfers. In order to obtain an environmental permit an application must be filled out. In the case of Verve Ventures a Standard Permit Application is required to be filled out and submitted to the UK Environmental Agency. In order to comply with the environmental permit the company must comply with any conditions issued by the regulator and inform the regulator in advance if any changes to operations are to be made. This process costs nothing unless the application requires the Environmental Agency to advertise an application in accordance with the public participation statement. In this case a (pound)500 (USD\$800) charge, or cost if lower, will be required from the corporation applying. The process takes approximately 3-6 week however legally UK Environmental Agency has up to three months to process a Standard Permit Application.

If a corporation does not comply with the conditions set by the regulator of an environmental permit the regulator has the following enforcement procedures:

- For minor breaches a regulator will discuss what is needed to comply with environmental permitting
- in more serious cases the regulator can issue a suspension notice, enforcement notice, prosecute or revoke the permit.

18

CARRIERS LICENSE

To transport any type of waste in the UK a corporation must have a waste carrier license. New applications cost (pound)154 (USD\$246) and renewal applications cost (pound)105 (USD\$168). Applications are processed in the order the UK Environmental Agency receives them and current process time ranges from 2-3

weeks, however legislation allows for up to a two month assessment period.

RESEARCH AND DEVELOPMENT

We have not incurred any other research or development expenditures since our incorporation.

SUBSIDIARIES

We do not have any subsidiaries.

PATENTS AND TRADEMARKS

We do not own, either legally or beneficially, any patents or trademarks.

OFFICES

Our principal offices are located at 33 Turnberry Drive Wilmslow, Cheshire Sk92QW.. Our telephone number is 44-161-884-0149. The current office space is being loaned to use free of charge by our Secretary and director Christopher Clitheroe. We intend to move to a more suitable location in the greater Manchester area if we are able to raise additional capital through an equity placement. We do not pay any rent and there is no agreement to pay any rent in the future. Such costs are immaterial to the financial statements and, accordingly have not been reflected therein.

LEGAL PROCEEDINGS

We are not currently a party to any legal proceedings. Our address for service of process in Nevada is PO Box 4470 Lake Tahoe, 89449-4470.

MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

NO PUBLIC MARKET FOR COMMON STOCK

There is presently no public market for our common stock. We anticipate applying for trading of our common stock on the over the counter bulletin board upon the effectiveness of the registration statement of which this prospectus forms a part. However, we can provide no assurance that our shares will be quoted on the bulletin board or, if quoted, that a public market will materialize.

STOCKHOLDERS OF OUR COMMON SHARES

As of the date of this registration statement, we have 29 registered shareholders.

RULE 144 SHARES

9,050,000 shares of our common stock are issued and outstanding as of the date of this prospectus. The resale of our common stock must be by way of registration or through reliance upon an exemption from registration. Our issued shares of common stock are not currently available for resale to the public in accordance with the volume and trading limitations of Rule 144 of the Act because we are a shell company. Our shareholders cannot rely on Rule 144 for the resale of our common stock until the following have occurred:

19

1. we have ceased to be a shell company;
2. we are subject to the reporting requirements of the Exchange Act;
3. we have filed all Exchange Act reports required for the past 12 months; and
4. a minimum of one year has elapsed since we filed current Form 10 information on Form 8-K changing our status from a shell company to a non-shell company.

When Rule 144 is available, our affiliate stockholder shall be entitled to sell within any three month period a number of shares that does not exceed the greater of:

1. 1% of the number of shares of the company's common stock then outstanding; or
2. the average weekly trading volume of the company's common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales under Rule 144 are also subject to manner of sale provisions and notice requirements and to the availability of current public information about the company.

STOCK OPTION GRANTS

To date, we have not granted any stock options.

REGISTRATION RIGHTS

We have not granted registration rights to the selling shareholders or to any other persons.

DIVIDENDS

There are no restrictions in our articles of incorporation or bylaws that prevent us from declaring dividends. The Nevada Revised Statutes, however, do prohibit us from declaring dividends where, after giving effect to the distribution of the dividend:

1. we would not be able to pay our debts as they become due in the usual course of business; or
2. our total assets would be less than the sum of our total liabilities plus the amount that would be needed to satisfy the rights of shareholders who have preferential rights superior to those receiving the distribution.

We have not declared any dividends, and we do not plan to declare any dividends in the foreseeable future.

PLAN OF OPERATION

ALL FIGURES HAVE BEEN CONVERTED INTO US DOLLARS OUR REPORTING CURRENCY

COMPLETION OF SECONDARY FINANCING (180 DAYS AFTER THE EFFECTIVENESS OF THIS REGISTRATION STATEMENT)

We expect to complete an additional public offering and file an additional registration statement registering the newly issued shares within 180 days after the effectiveness of this registration statement by the Securities and Exchange Commissions. We intend to concentrate all our efforts on raising capital during this period. We do not plan to begin business operations until we complete our additional public offering. We will require additional financing of \$350,000 in order to proceed with our full business plan for a full year. The \$350,000 will

20

include all items budgeted for in our plan of operations as well as \$20,220 for in additional working capital. We will realize no proceeds from this registration statement and may have difficulties in raising additional funds due to the creation of a secondary market of shares for sale.

We plan to sell additional common shares in order to raise the funds necessary to pursue our plan of operations. Issuances of additional shares will result in dilution to our existing shareholders. We also may receive loans from our officers and directors.

We currently do not have any arrangements in place for obtaining director loans and there is no assurance that we will be successful in completing any equity financing. Once the present registration statement is effective there will be a ready market of secondary shares for sale, from which we will receive no proceeds. This will make it difficult to complete our secondary offering and the future share price will dictate the price of any additional raises.

BUDGET: \$15,000

DEVELOP WEBSITE (45 DAYS AFTER THE EFFECTIVENESS OF THIS REGISTRATION STATEMENT)

We have begun work on a corporate website but additional funds are required in order to purchase and integrate software. Software will include ability to order waste removal services online and time and location of pickup information will be uploaded to vehicle fleet to make for increased efficiencies for both the our corporation as well as our potential clients. Our website will be used to raise awareness for our business and the benefits (social and environmental) our services provide. In addition the website will be used for ordering and payment of our services.

BUDGET: \$15,000

LEASE AND OUTFIT WASTE-REMOVAL VEHICLES (IMMEDIATELY UPON COMPLETION OF WEBSITE)

We intend to lease two 'Waste-Removal Vehicles'. Initial capital expenditures are projected by Management to be approximately \$20,000. This expense is made up of an \$8,000 down payment for each vehicle and an additional \$2,000 per vehicle to outfit with integrated screen for GPS and delivery data.

In addition monthly costs for each vehicle are expected to be approximately \$2,845. This expense is made up of the following costs: \$650.00 for lease payments, \$150 for insurance, \$2,000 for gasoline, and \$45 for environmental fees. All numbers have been determined using current available information and converted into USD as this is the currency we will be raising funds in. The monthly costs will be multiplied by twelve in order to determine an annual budget.

BUDGET: \$88,280

ESTABLISH AND PROCESSING PLANT. (60 DAYS AFTER COMPLETION OF SECONDARY FINANCING)

We intend to find a suitable indoor/outdoor space to conduct or sorting and storage operations. This space will be used to organize general waste into the following categories:

Recyclable: Materials that can be further processed to be made into new products. These materials will be delivered to the nearest recycling facility.
Re-usable: Materials, that are suitable to be reused. Use to be determined based on material/product.
Garbage: Materials that do not fit into the other two

categories.

Management expects leasing costs of approximately \$3,000 per month for a suitable location and initial storage and other equipment expenses of approximately \$15,000. This initial cost includes large bins, tarps, computer, and phone.

BUDGET: \$51,000

HIRE STAFF (IMMEDIATELY UPON ESTABLISHMENT OF PROCESSING PLANT)

21

We intend to initially hire two employees other than the current officers and directors. One employee will be responsible for running the organizational and sorting operations at the processing plant while the second will be responsible for operating the second truck. Additional employees will be hired as required. Management intends to pay the processing plant employee \$2,500 per month and the truck driver \$3,000 per month. In addition a salary of \$3,500 per month will be paid to Mr. Christopher Clitheroe who will be driving the second vehicle and handling managerial responsibilities.

BUDGET: \$108,000

BEGIN MARKETING EFFORTS AND OPERATIONS (IMMEDIATELY UPON HIRING STAFF)

We intend to begin marketing and actual operations immediately once website, Waste-Removal Vehicles, processing plant and staff are available. Marketing plans are described in greater detail under business description.

BUDGET: 25,000

SUMMARY

In summary, we should be in full operation and taking on contracts within 285 days (approx 9.5 months) of the effectiveness of this registration statement. Our main focus once in full operation will be to expand our business through marketing efforts and to keep costs to a minimum while making sure any clients we can attract are satisfied with our services.

LIMITED OPERATING HISTORY; NEED FOR ADDITIONAL CAPITAL

There is no historical financial information about us upon which to base an evaluation of our performance. We are a start-up company and have not generated any revenues. We cannot guarantee success of our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources and possible cost overruns due to price and cost increases in services and products.

We have no assurance that future financing will be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. Equity financing could result in additional dilution to existing shareholders.

RESULTS OF OPERATIONS FOR PERIOD ENDING OCTOBER 31, 2010

We did not earn any revenues from our incorporation on February 23, 2010 to October 31, 2010. We incurred operating expenses in the amount of (\$1,972) for the period from our inception on February 23, 2010 through October 31, 2010. These operating expenses were comprised incorporation costs, website, bank service charges and other development costs.

We have not attained profitable operations and are dependent upon obtaining financing to continue with our business plan. For these reasons, there is substantial doubt that we will be able to continue as a going concern.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS

We have had no changes in or disagreements with our accountants.

22

AVAILABLE INFORMATION

We have filed a registration statement on Form S-1 under the Securities Act of 1933 with the Securities and Exchange Commission with respect to the shares of our common stock offered through this prospectus. This prospectus is filed as a part of that registration statement, but does not contain all of the information contained in the registration statement and exhibits. We have been advised that in the opinion of the Securities and Exchange Commission indemnification for liabilities arising under the Securities Act is against public policy as expressed in the Securities Act, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities is asserted by one of our directors, officers, or controlling persons in connection with the securities being registered, we will, unless in the opinion of our legal counsel the matter has been settled by controlling precedent, submit the question of whether such indemnification is against public policy to court of appropriate jurisdiction. We will then be governed by the court's decision.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
Verve Venture Inc.
(A Development Stage Company)

We have audited the accompanying balance sheet of Verve Venture Inc. (A Development Stage "Company") as of October 31, 2010 and the related statements of operation, changes in shareholders' equity and cash flow for the period from February 23, 2010 (inception) to October 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Verve Venture Inc. as of October 31, 2010 and the result of its operation and its cash flow for the period from February 23, 2010 (inception) to October 30, 2010 in conformity with U.S. generally accepted accounting principles.

The financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company's losses from operations raise substantial doubt about its ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

VERVE VENTURES INC.
(A Development Stage Company)
Notes To The Financial Statements
October 31, 2010

1. ORGANIZATION AND BUSINESS OPERATIONS

VERVE VENTURES INC. ("the Company") was incorporated under the laws of the State of Nevada, U.S. on February 23, 2010 and established a fiscal year end of October 31, 2010. The Company is in the development stage as defined under Statement on Financial Accounting Accounting Standards Codification FASB ASC 915-205 "Development-Stage Entities." and it intends to provide waste removal and disposal services to corporate and individual clients in the United Kingdom. Our services will be focused on a client base that is willing to pay a premium to assure both social and environmental concerns are addressed in all aspects of waste collection and disposal. We intend to operate a fleet of vehicles and a sorting/storage facilities both of which will begin small and scalable.

The Company has not generated any revenue to date and consequently its operations are subject to all risks inherent in the establishment of a new business enterprise. For the period from inception, February 23, 2010 through October 31, 2010 the Company has accumulated losses of \$1,972.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Presentation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in US dollars. The Company's fiscal year end is October 31.

b) Going Concern

The financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception resulting in an accumulated deficit of \$1,972 as of October 31, 2010 and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months with existing cash on hand and loans from officers and directors and or private placement of common stock.

c) Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents.

d) Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

e) Foreign Currency Translation

The Company's functional currency is the British Pound and its reporting currency is the United States dollar.

F-6

VERVE VENTURES INC.
(A Development Stage Company)
Notes To The Financial Statements
October 31, 2010

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

f) Financial Instruments

The carrying value of the Company's financial instruments approximates their fair value because of the short maturity of these instruments.

g) Income Taxes

Income taxes are accounted for under the assets and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

h) Basic and Diluted Net Loss per Share

The Company computes net loss per share in accordance with SFAS No. 128, "Earnings per Share". SFAS No. 128 requires presentation of both basic and diluted earnings per share (EPS) on the face of the income statement. Basic EPS is computed by dividing net loss available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all potentially dilutive common shares outstanding during the period. Diluted EPS excludes all potentially dilutive shares if their effect is anti-dilutive.

1) Recent Accounting Pronouncements

In June 2009, the FASB issued guidance now codified as ASC 105, Generally Accepted Accounting Principles as the single source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with U.S. GAAP, aside from those issued by the SEC. ASC 105 does not change current U.S. GAAP, but is intended to simplify user access to all authoritative U.S. GAAP by providing all authoritative literature related to a particular topic in one place. The adoption of ASC 105 did not have a material impact on the Company's financial statements, but did eliminate all references to pre-codification standards.

In February 2010, the FASB issued Accounting Standards Update ("ASU") No. 2010-09, "Amendments to Certain Recognition and Disclosure Requirements" ("ASU2010-09"), which is included in the FASB Accounting Standards Codification (the "ASC") Topic 855 (Subsequent Events). ASU 2010-09 clarifies that an SEC filer is required to evaluate subsequent events through the date that the financial statements are issued. ASU 2010-09 is effective upon the issuance of the final update and did not have a significant impact on the Company's financial statements.

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

Future tax benefits which may arise as a result of these losses have not been recognized in these financial statements, as their realization is determined not likely to occur and accordingly, the Company has recorded a valuation allowance for the deferred tax asset relating to these tax loss carry-forwards.

5. RELATED PARTY TRANSACTIONS

February 23, 2010, an officer and director Christopher Clitheroe had loaned the Company \$1,275. On March 3, 2010 an officer and director Christopher Clitheroe had loaned the company \$100. The loan is non-interest bearing, due upon demand and unsecured.

6. SUBSEQUENT EVENTS

INDEMNIFICATION OF DIRECTORS AND OFFICERS

Our sole officer and director is indemnified as provided by the Nevada Revised Statutes and our bylaws.

Under the NRS, director immunity from liability to a company or its shareholders for monetary liabilities applies automatically unless it is specifically limited by a company's articles of incorporation; that is not the case with our articles of incorporation. Excepted from that immunity are:

- (1) a willful failure to deal fairly with the company or its shareholders in connection with a matter in which the director has a material conflict of interest;
- (2) a violation of criminal law (unless the director had reasonable cause to believe that his or her conduct was lawful or no reasonable cause to believe that his or her conduct was unlawful);
- (3) a transaction from which the director derived an improper personal profit; and
- (4) willful misconduct.

Our bylaws provide that we will indemnify our directors and officers to the fullest extent not prohibited by Nevada law; provided, however, that we may modify the extent of such indemnification by individual contracts with our directors and officers; and, provided, further, that we shall not be required to indemnify any director or officer in connection with any proceeding (or part thereof) initiated by such person unless:

- (1) such indemnification is expressly required to be made by law;
- (2) the proceeding was authorized by our Board of Directors;
- (3) such indemnification is provided by us, in our sole discretion, pursuant to the powers vested us under Nevada law; or
- (4) such indemnification is required to be made pursuant to the bylaws.

II-1

Our bylaws provide that we will advance all expenses incurred to any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he is or was our director or officer, or is or was serving at our request as a director or executive officer of another company, partnership, joint venture, trust or other enterprise, prior to the final disposition of the proceeding, promptly following request. This advance of expenses is to be made upon receipt of an undertaking by or on behalf of such person to repay said amounts should it be ultimately determined that the person was not entitled to be indemnified under our bylaws or otherwise.

Our bylaws also provide that no advance shall be made by us to any officer in any action, suit or proceeding, whether civil, criminal, administrative or investigative, if a determination is reasonably and promptly made: (a) by the board of directors by a majority vote of a quorum consisting of directors who were not parties to the proceeding; or (b) if such quorum is not obtainable, or, even if obtainable, a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, that the facts known to the decision-making party at the time such determination is made demonstrate clearly and convincingly that such person acted in bad faith or in a manner that such person did not believe to be in or not opposed to our best interests.

AMENDMENT #2

Re: Form S-1 filed February 4, 2011

To Whom It May Concern:

On behalf of Verve Ventures Inc. a Nevada corporation (the "Company"), we submit the following responses which correspond to the numerical comments contained in the Securities and Exchange Commission letter dated February 9, 2011 (the "SEC Letter") regarding the Registration Statement on Form S-1 (the "Registration Statement").

REGISTRATION STATEMENT ON FORM S-1

GENERAL

- 1) The Registrant respectfully disagrees with the Commission's insistence that the Registrant is a blank check company. According to the language of Rule 419, a blank check company: "Is a development stage company that has no specific business plan or purpose or has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies, or other entity or person..." To our knowledge the Commission has never defined what "a specific business plan" entails. Typically, if the Commission believes that a business plan requires additional specificity, it provides detailed comments to guide the registrant in making the required disclosure.

We would like to draw the SEC to the fact that the Registrant has researched its chosen market place, associated costs and viable revenues with its chosen business plan. In addition during the past two months we have signed a marketing agreement been paying for our toll free number and have made our website www.vervejunk.com live.

- 2) In response to this comment we have added the following language to the part of the Registration Statement entitled "The Offering":
- 3) The purpose of this offering is to offer existing shareholders (other than officers and directors) the opportunity to benefit from a trading market, if one develops in response to the Company's future performance. Depending on the level of market interest, the Company may consider selling additional shares to new investors to help fund working capital requirements and expand the scope of business. The Company is aware of the fact that the creation of a secondary market of shares for sale may have an adverse affect on our ability to raise capital in the future. The Company is not contractually obligated to file the S-1.
- 4) Leslie Clitheroe and Christopher Clitheroe have been identified as promoters of Verve Ventures Inc.
- 5) In response to this comment, we have created a section for the OUTSIDE BACK COVER OF PROSPECTUS at the end of Part I of the Registration Statement, under which we have added the required language for the Dealer Prospectus Deliver Obligation.

OUTSIDE FRONT COVER PAGE OF THE PROSPECTUS

- 6) The Company has revised the disclosure to correctly state shares as quoted throughout the prospectus.

SUMMARY, PAGE 3

- 7) The Company has revised the disclosure to address all points in comment #9. Points 2 and 3 are discussed with the closing sentence in the summary: "The current burn rate is primarily made up of the costs associated with being a reporting issuer and is projected to increase substantially once operations begin."

SELLING SHAREHOLDERS, PAGE 9

- 8) The company has added a statement to the disclosure to state the two identified shareholders in the notes are the only selling shareholders affiliated with the company.
- 9) The Company has revised the disclosure to remove the statement "Except as listed below"

PLAN OF DISTRIBUTION, PAGE 11

- 10) The Company has revised the disclosure to sufficiently state the company is a shell company.

EXHIBIT 23.1

- 11) The Exhibit 23.1 has been re-issued with the correct date of the audit.
